

NINTH TRANSDIMENSIONAL LEVEL

LOCATION

Connected into the body and field through the subatomic particles called quarks

ANCHOR POINT TO THE PLANET

There are many earthly anchor points but the main anchor point is in Siberia. There is also an anchor point in the Ganges River in India.

ASSOCIATED COLOR

Gold with more yellow and a bit of light green harmonics

PERSONAL ISSUES ASSOCIATED WITH THE NINTH CHAKRA

This is one of the first levels that vibrates so far beyond human experience that there are no personal issues associated with this chakra.

ABOUT THE NINTH DIMENSION

- The ninth dimension primarily focuses its energy on intergalactic activities and endeavors.
- Because the ninth dimension interconnects galaxies, it has very unusual light frequencies and light/sound harmonics. These light frequencies and harmonics form a self-regulating system that oversees the evolution of all of the galaxies. This is a very important function as no one galaxy can evolve at a rate or pace to imbalance the universe.
- Barbara Hand Clow (with Gerry Clow) in her book, *Alchemy of Nine Dimensions* writes with great clarity about the ninth dimension. She maintains that the Milky Way is the entirety of the 9th dimension and contains a black hole in its very middle from which flow intergalactic energies. She feels that from this source are derived the origins of time itself.
- In my view, the Mayan Universal Tree of Life, which governs the evolutionary cycles of this planet, vibrates to the ninth dimension.
- From the perspective of human soul evolution, once you have vibrated to all nine dimensions, you have officially completed your universal experience and are free to come or leave the universe.
- When I want to safely travel in various worlds, I like to enter from the ninth dimension because border guards, such as the Council of Nine, watch out for my welfare and recalibrate my energy field vibration. Intergalactic realms are the inner spiritual planes for many cultures on the earth, so traveling here is like sliding between the culture and their respective spiritual worlds.
- The ninth is the dimension of quarks. Quarks are truly quantum in their reality. The quark aspect of us allows our multidimensionality. Quarks seemingly appear and disappear very quickly. When they appear in this reality, they support our third dimensional reality. When they disappear to another dimension, world or galaxy, they support that aspect of us. This instantaneous presence between and among

the other dimensions, realms and galaxies allows us to continually be in contact and communication with our other parts.

- This is the beginning of nonduality between the dimensions. It is not the simultaneous consciousness of all of our multidimensionality such as at the tenth and eleventh levels, but it is the beginning of nonduality in a very real way.

SHADOW ASPECTS OF THE NINTH DIMENSION

- Violations of Spiritual Law as they relate to intergalactic issues

TRAVELING IN THE NINTH DIMENSION

- At a time when I traveled in this dimension quite a lot, I primarily spent time working with inner planes councils such as the Council of Nine. This Council regulates the comings and goings of souls and entities onto the planet and into the galaxy (exit and entrance visas). They are in essence high-level governance for the intergalactic negotiations. This council also deals with high-level violations of Spiritual Law.
- I have also just spent time cruising in this dimension without content, surfing the harmonics with their intricate complexity.
- When I am working with clients and supporting their spiritual development by overseeing spiritual initiations, I work from and within this level.
- I work from this dimension whenever I transition a soul from this life to the next.

ASSOCIATED SENSATIONS WHEN TRAVELING HERE

Contrasted with the coarse strength of the 8th dimensional energies, the 9th dimensional energies are smooth and subtle. The harmonics allow for a most relaxing, yet totally absorbing experience. Subtle refinement would be the best phrase for this experience.

APPLICATION OF NINTH DIMENSIONAL ENERGIES

- Dimensional energies from here can be downloaded by healers to their clients to stimulate the brain to send messages to the body for healing.
- Dimensional level needed to access permission to work with soul evolutionary models.
- Dimensional level used to inform cells to shift vibration and dimensional levels; these are called the Re-creation codes.
- I love to work in and from this dimension with clients. When I peer inside the atom and work with the quark awareness in the body, I see its inner planes which look like threads that have 9 levels to them. This quark level helps the pure essence of self enter into the body and anchor, thus truly spiritualizing matter. As I work to activate and awaken this level in my client, they tend to respond with “in the body” feelings of joy and exhilaration. They also report feeling more solid and “more themselves” than ever before. It is a truly an “in the body/out of the body” feeling. That’s one of the hallmarks of evolutionary work.
- Deep work in the brain is often done from and with this dimension and its energies.
- Guides and councils at this level love to work with evolution at all levels.
