

TENTH TRANSDIMENSIONAL LEVEL

LOCATION

There are several tenth dimensional portals or gateways into the body, the most significant ones located within the lymph glands. The overall regulator for your tenth dimensional intersection is the central axis.

ANCHOR POINT FOR THE PLANET

Each country has its own anchor point and my guides indicate that the anchor point for the United States resides somewhere in the state of Delaware. The Dalai Lama himself is also considered an anchor point.

ASSOCIATED COLOR

I always see this dimension as pure white light or more like pure, blinding white light

PERSONAL ISSUES ASSOCIATED WITH THE TENTH CHAKRA

The tenth is another level that vibrates so far beyond human experience that there are no personal issues associated with this chakra.

ABOUT THE TENTH DIMENSION

- The tenth dimension exists in pure nonduality and unity. This is the first dimension wherein consciousness is capable of simultaneously experiencing all other nine dimensional levels.
- One of the fundamental functions of the tenth dimension is to oversee the administration of Spiritual throughout the universe.
- The tenth and eleventh dimensions coordinate much like well-honed dance partners. The tenth dimension provides the structure for Spiritual Law for the universe and holds its structure in place. The eleventh dimension integrates Spiritual Law into a creative Organizing Principle that in turn disseminates universal creation. Another way of explaining this is that Spiritual Law informs the creative Organizing Principle of the Universe.
- The tenth dimension is the level of your primal Oversoul. Your Oversoul is another name for your tenth dimensional self. In the first through eighth dimensions, a level of separation between and among the dimensions exists. Each dimension represents a separate and unique aspect of you. Your Oversoul is a very special kind of Higher Self, for it is the first level of self that has the capacity to simultaneously connect to all of the lower aspects of self (1-9) all at the same time. In other words, it is the first level of self to be most nearly non-dual or unified.
- Housed in the tenth dimension are blueprints for how your spirit evolves through the Universe (in contrast to the eighth dimension where the evolutionary blueprints for your soul are contained.) Your spiritual lineage takes lawful blueprints and incorporates them into all of their endeavors.

- Master Archangels and Devas resonate to the tenth dimension of consciousness. There are only about 13-15 Master Devas on the planet.
- The best healers on the planet are very well connected into the tenth dimension and use energies and information from here to heal.

SHADOW ASPECTS OF THE TENTH DIMENSION

- Violations of Spiritual Law
- The most common example of Spiritual Law violation on the planet involves the wholesale destruction and annihilation of one culture by another race or culture. Spiritual Law protects cultures so any interference that renders a culture extinct violates this holy principle.
- There are other violations of Spiritual Law throughout the Universe and its varying dimensions. An example would be an eighth dimensional initiate who is asked to create harmonizing forces for an entire galaxy and who in the course of this task, purposefully mutates the harmonics and disturbs the cosmic and galactic balance.

TRAVELING IN THE TENTH DIMENSION

I cannot reveal a great deal about my experiences on this level as they are not for public dissemination and confidentiality is required. I can say that there are High Courts in the tenth dimension that function to preserve the integrity and restoration of Spiritual Law. Souls or spirits who have violated Spiritual Law are held accountable for their actions and are given remedial experiences so that they can voluntarily realign themselves to Spiritual Law once again.

ASSOCIATED SENSATIONS WHEN TRAVELING IN THE TENTH DIMENSION

- My conscious experiences have been confined to Spiritual Law Inner Planes Councils. I love this experience. The sense of holy sanctity, impartiality, and nondual consciousness coupled with ageless, timeless wisdom and benevolence elevate such experiences to the realm of the sublime.
- The best way for me to describe the countenance of a Master Archangel or Master Deva who inhabits the tenth dimension is to compare them to Gandalf, a character in Lord of the Rings. They are like Gandalf raised to the twelfth degree!

APPLICATION OF TENTH DIMENSIONAL ENERGIES

- Very powerful, masterful healers who employ the dimensional grid model of healing connect into the tenth dimension and descend energies from there to their clients. This is fairly rare, however.
- Working with the Oversoul Override Invocation is very helpful.
- Archangels here serve as powerful healing guides.
- Master Archangels and Master Devas (there are only about 13-15 of them on the planet) can be called upon for spiritual work involving national or planetary issues. These Archangels and Devas of such high level consciousness rarely involve themselves in personal/soul issues.
- Working from the tenth dimension begins the work of the truly miraculous.

- Rotating your central axis (a very advanced skill allows you to shift your state of consciousness.
